ROLLER TEAM

EN | 21

Roller Team is an Italian reality dedicated to plein air tourism where entrepreneurial spirit and technological approach have allowed to reach excellence at international level.

A brand recognised worldwide for features such as dynamism and innovation, which conceives and manufactures motorhomes that combine style with technology and quality for unforgettable travel experiences.

Constant technological innovation in production processes, continuous product renewal, intelligent solutions and cutting-edge manufacturing techniques respond in an increasingly efficient and complete way to people's needs, at an always competitive price.

Roller Team offers numerous customisations able to meet the needs of any customer and stands out for being a company that releases on the market a wide selection of all-inclusive models, but further customisable, from which you can choose.

Roller Team, close to the customer everywhere with excellent service.

There are hundreds of qualified outlets that distribute the Roller Team brand today: a comprehensive sales network spread throughout the major European countries. It's thanks to its distribution partners that Roller Team is close to its clientele everywhere, ready to satisfy customers' every requirement with appropriate tools and a wide range of pre-sale and aftersales services. An organised, targeted network, product development in keeping with the habits and needs of different cultures, distribution agencies in the area, staff from the area: these are the secret weapons with which Roller Team presents itself on international markets with growing success.

Why choosing Roller Team

+ insulation + protection - noise.

The technology for building living units capable of ensuring complete protection for your motorhome.

300 kg of independence. A maxi-garage designed for you to take your freedom with you anywhere at all times.

The motorhome that “breathes” thanks to correct internal air distribution, favouring circulation, making the temperature uniform and preventing condensation from forming.

In safe hands with motorhome SottoControllo (“UnderControl”). Roller Team puts its own experience and expertise at the service of every motorhome produced. A team dedicated to quality control and continuous improvements follows each motorhome throughout the production stage with inspections and tests from design to delivery.

The Italian with “Nordic” features.

Always at ease in the vehicle, whatever the temperature outside: a motorhome designed and built for use in colder climes.

Double floor

A lot of stowage for a great journey.

The Granduca double floor is designed to make great holidays with great usability of space, ensuring ample stowage and protection.

The structure:

Thanks to the well-conceived double floor construction, with a height of up to 37 cm, the load volume rises to 3,800 litres, offering plenty of space even for long journeys with six people on board. From the **double floor** it is very easy to reach the technical room, which offers enough space for 2 living unit batteries and fresh water tanks up to 150 litres.

Let the holiday begin!

The structure is composed of two floors, an upper floor that constitutes the plane of the cell, and a lower floor.

The two levels are divided by aluminium supports that **guarantee at the same time lightness and stability**.

690 lt of available space

Large space available in the double floor that allows easy loading both from the inside and from the outside.

The maxi-garage is fitted at the front, with a capacity of **550 litres**.

At the entry of the cell, in the access step, there is a comfortable **shoe holder** of **35 litres**. Inside, the double floor is accessed through the **floor trapdoors** with a capacity of **105 litres**.

Floor The height of the two surfaces, 38 mm for the living unit floor and 20 mm for the lower floor, provide greater **thermal and acoustic insulation**.

NOTICE - All the information and photos shown herein are to be considered as merely indicative and do not constitute contractual specifications. Trigano S.p.A. reserves the right to make the technical and configuration changes considered appropriate to its vehicles and to change the equipment the vehicles are provided with at any time and with no official notice. Owing to the above, all the information concerning the specifications and equipment of every motorcaravan must be requested before purchase from the dealer, who, acting as sole point of reference, will confirm or rectify the data published herein, updating the customer on the actual features and equipment of the vehicle he/she is interested in and for which negotiations are ongoing. Trigano S.p.A. declines any liability concerning changes, including additions, and/or conversions made after the printing of this document and/or delivery of the vehicle. Weights and dimensions of vehicles and options are subject to change with a tolerance of +/- 5%, dimensions of vehicles with a tolerance of +/- 3%, according to the Directive 2007/46/CE. Important note: Anything which is not included in the standard version of the vehicle, concerning both living quarters and chassis, entails an increase of the mass in running order, with the consequent reduction in the useful load up to the possible reduction in the number of certified seats in case the total weight exceeds the value of the available payload. The available payload consists in the difference between the maximum permissible weight and the mass in running order, with a tolerance of 5%. Therefore, during the purchase phase it is mandatory to carefully consider the weight of any optional equipment you wish to install on the vehicle. This weight is indicated in the specific item of the technical data on www.rollerteam.it. Hence, please remember that the laws in force do not allow the maximum permissible weight indicated in the specific item of the technical data sheets to be exceeded. It is recommended that each user adjust the load and the number of passengers carried to the maximum technically permissible maximum mass of the vehicle. Fitting, removing or alterations carried out c/o unauthorised workshops may compromise your safety and at the same time lead to invalidation of the warranty.
